

Places of Sanctuary: Learning about our natural world and growing in faith

There are lessons to be learned from our natural world. In order for us to care for what we've been given, we must learn about it. Where does the water come from? How do the plants and animals adapt and grow in their environment? How amazing is it that God knit all of this together?

The staff of Mar-Lu-Ridge and Caroline Furnace are ready to teach you about these special places and what you can do to care for the world around you. Consider bringing a group to do a pond study or take a hike learning to identify plants and rocks.

Both Mar-Lu-Ridge and Caroline Furnace offer Family Camps as part of the summer season. These are great opportunities to experience camp with your children or grandchildren, and spend time getting to know God in His creation. Additionally, each of our facilities is open year-round for retreats and programs. We have unique spaces where people of all ages and backgrounds can come away, explore their environment and reflect.

We encourage you to gather your youth group, scouts, men's and women's groups and families, and join us for a memorable time apart. We offer high ropes, archery, campfires, hiking, canoeing, and challenge course facilitation as well. The beauty of God's creation awaits!
