

Summer camp changes lives!

The young people who feel called to work at summer camp are a gifted group. They choose to spend their time working long hours, 6 days a week for over 2 months! They do not earn as much money as they would in a traditional summer job, but that is not important to them.

They have answered a call.

The experience gained by caring for and leading young campers is immeasurable. Faith in action! Some of the most profound experiences of their lives take place in small groups, around campfires, or while encouraging their campers to try the zip line or swim across the pool.

If you know a college age person who is gifted to lead – full of the joy of the Lord and ready to work hard – please share the employment applications found on the Caroline Furnace and Mar-Lu-Ridge websites. All staff are trained and certified in CPR/AED and First Aid, and many also pursue certifications in High Ropes, Water Safety and Lifeguarding.

These are the leaders who go on to serve in their congregations and communities through the Lutheran Volunteer Corps, Young Adults in Global Mission, and the Peace Corps. Some of them will even pursue seminary and a life in the church. We can support them by encouraging them to have a summer experience they'll never forget!
